

Situation

Environment

weather is set to be clear skies, visibility exceeding 15km, expected engagement distances are within 400m Towns we will be passing through should be peaceful however use caution

Greenfor

Nationalist Forces

Nationalist forces are a mechanized paramilitary force wearing woodland camos or olive drab and armed with cold war era weapons we have struck a deal with them and as a result they should not attack us however use caution.

Enemy forces

Republicans

Republicans are an air based military force supported by a paramilitary force they wear woodland camos or olive drab and armed with cold war era usually identifiable with blue tape or bands

Mission

1st platoon is tasked Ensuring security for Engineers to repair electrical infrastructure and for transporting cargo directly to Nationalist forces

Execution

Concept of operations

Scheme of maneuver

DO NOT FIRE Without Hostile intent

1-0 and Arsenal will move to the Rally points and Rifle Squads will move to the Rally points then drive to designated security positions

1-1 will provide security at Checkpoints Able and Dog

1-2 will set at Checkpoints Baker and Dog

1-3 will set at checkpoint Charles and will directly accompany arsenal for handing over supplies at objective Bravo

Formation

The formation will be 1 of the m2 Mrap will lead the formation followed by the mk19 MRAP, the command Humvee, All Logistics Vehicles, The Final Armed Mrap

Coordination

All times will be given in reference to operation scheduled start (OS) at

OS-60 is the leadership brief mission details will be finalized,

OS-30 will be everyone loads in

OS-20 will be Equipment inspections

OS-10 Squad Leaders will brief their units

OS+0 will be step

Actions on contact

At a Rally point

the element directly in contact should bed down in place and radio for assistance, the other elements will mount up and maneuver to destroy the contact

In the event anyone tried to move through the checkpoint if they are showing any suspicion activity or appearance stop and search them for

weapons and explosives,
If they refuse to stop fire a warning shot, if they still try to get through treat as hostile, use of force is authorized

On the Move

To ensure route security during a contact on the move we will stop, soft dismount, Vics will get in a line and have a mad minute while infantry dismount and maneuver on the enemy, patrol Leader will order the shift and lift fire calls and dismounted forces will assault the enemy

Unnamed Logistics vehicles are to remain clear of the fighting and crews should dismount and protect their vehicles

Support

Supply

Wear appropriate camouflage for the Terrain avoid woodland patterns
Carry at minimum 6+1 mags
Belt fed guns must have 800 rounds linked
Ensure all contractors have standard Ifaks on their person
We will be returning to base in between objectives
Each Element should have at Least one Belt fed weapon system

Medical

Any critically injured casualties should be moved to the Platoon CCP
located at the relevant Objectives Rally Points

medical PACE plan

Primary: Self Aid

Alternate: Buddy AID

Contingency: Squad Medics

Emergency: Platoon medic

Prisoners of War

Abide by all international conventions on the laws of armed conflict and on the treatment of people Hors de combat each squad should have someone appointed for processing of Prisoners of war and after the fight they should be passed off to logistics to be fully processed

Anyone Detained at the security positions should be released after we leave as long as they do not pose a threat to our safety otherwise they should be detained and brought in for processing

Command and Signal

Command

Succession of Command

Patrol Leader: Derpy
In order, K9, Nerd, Acting SLs by seniority

Location of Commanders

1-6 will be at Rally points
1-9 Will have medical Command at a CCP set Near Active Rally Points

Commander's Intent

Ensure logistics is unharmed enough to affectively perform their funstipns in a safe manner priotizing lower damage over speed

Signal

Frequenties as standard

Communications Pace Plan

Primary: Hand, Arm, and Mouth
Alternate: AN/PRC-152
Contingency: Launched Star Clusters
Emergency: Runners
